## DEA Advantage

What we have proven to our Clients is that “Experience, Commitment, Quality, Innovation” are truly the core principles that every member of DEA follows. What distinguishes DEA is, not only our commitment, but our proven ability to resolve any environmental concern.

## Experience and Knowledge

DEA has been working with tower companies, wireless carriers, broadcasting companies, TURF and BTS vendors since 1993, having completed Environmental Due Diligence and NEPA Assessments for thousands of site locations throughout the country involving virtually every conceivable type of physical location, and encountering a multitude of varying environmental situations.

## Value-Added Relationships

Understanding the Clients requirements and those of the Federal Communication Commission and other reviewing agencies are key to efficiently and cost effectively completing the required work. DEA strives to work “with” our Clients and “with” the reviewing agencies and by having strong working relationships with SHPO offices, Native American Tribes, USFWS and others, we are successful in achieving the Client’s goals.
